

DESIRE POWER

Desires are the building blocks of duality,
Thus separation from Source.

But there's a Caveat here.

If you desire, with all your heart,
In a pure way,
Spiritual growth that benefits all of humanity,
You build a staircase into the Universe,
Toward Source.

You **do** understand that desiring
A new car,
A skinny body,
A larger house,
A bigger boat,
Does not, a staircase build.
