

PREFACE TO FURTHER AWAKENING

Do you have ears to hear?
Do you know what that *really* means?

"Ears to hear and eyes to see" means that you are aware
Of existence beyond the ability of your five senses to perceive.

It means that your Consciousness has expanded to touch the next dimension.

It's like **GETTING** a metaphor's deepest meanings, which render you speechless.

It's like having an inner recognition that nails you to the ground
And leaves you breathless with undefined anticipation.

That feeling of Wonder is often called
Awareness,
And it's all inside,
It's all about your Soul Growth.

Soul Tips are early alerts from Ageless Wisdom,
Like crowbars prying open your eyes and ears
So your Soul can take a deep breath
And see the world, life, in all its Glory—

—*Then* you can explore the rest of creation
Without dying of shock from
Incredible Beauty.
