

THERE IS REALITY

There is reality,
And then there is **Reality**.

They are the same, but not the same.

Reality we see,
And we believe that we see *All there is to see*.

But, REALITY, the gigantic, invisible, unbounded Truth,
We don't see at all.

That makes the reality we see and
Love to buy, clean, store, and show off,
Is only half of the story.

That means we operate in half-light,
While believing we see ALL LIGHT.

Belief is a strong emotion, Baby Love,
Created by thoughts and repeated aloud
Until they sound like true Truth.

Be Wise. Select your language
According to your purest heart
And True to the values you choose.
