

GET AHOLD OF YOURSELF

Your self-chosen incarnate circumstances,
With your unique challenges,
Comprise your particular karmic set-up
For continued spiritual transformation.

Realize it or not, your volitional actions to transform
Are a considerable part of Evolution.
Humans Being, are pivotal mechanisms of The Plan,
And have no choice but to embody Divinity.
That's who we are.

Nothing's gonna DO IT TO US, Baby Love, so
Let us get about our life's work with
Conscious awareness of the Divine within.

Truly living consciously as a Divine entity,
While recognizing the vastness of our ignorance,
Generates authentic humility,
Peace, Love, and all other necessities
For the Spiritual Evolution of Everything.

Fact is, as we change and evolve,
We drag everything in the Cosmos with us,
To a Higher or Lower frequency,
Depending on the direction of our
Thoughts, words, and actions.

Think Love. Be Love.
Change The World.

*Got to start somewhere, Baby Love,
And you're the only one who has even
A remote chance of transforming you.*
