

## SELECTIVE SURRENDER

What is surrender? Why surrender?

Why give It Up?

Spiritually speaking, *give up what?*

To What ? And Where ?

Who the heck is blocking our spiritual growth and  
Shutting down our expansion of consciousness?

What/Who are we surrendering to? And WHY *that*?

Are we surrendering aspects of personality?

Our freedom to love and hate?

Our ability to choose and make mistakes?

Our internal joy in simply living life?

*Surrender those?*

What unknown considerations

Constrain our naturally soaring spirit?

What prevents us from living a life of

Unwavering kindness and relentless compassion?

Do we aim for the Moon?

Do we dance around the midnight fire?

Do we freely give away our treasure?

Do we toil for or spend our time on behalf of others?

What keeps us from fully expanding our love of life to include

All Beings in all planes, domains, dimensions and kingdoms?

What prevents us from breaking out with blinding Joy

Every morning of our life?

**SURRENDER *THOSE***
