

WE ARE ALL GIFTED

We are all gifted with a Shadow Side,
So we will be able to grow spiritually.

Your Shadow is not what you think.
It is the nursery of your transformation.

It is where seeds are planted, requiring attention
If they are to come to fruition,
Flowering into a higher frequency Soul.

It's called "shadow" because
It is hidden from your conscious awareness,
And it is one aspect of the Divine Feminine.

You know it not, but you are relentlessly guided
Into transformation by your Shadow.
Think: *Opportunity*.

Your Shadow reflects back to you those aspects of your humanness
Needing to transform into that which
Pushes you closer to realizing your divinity.

It's seldom pleasant to discover
That your personality demands changing.
And the changing of it can be quite arduous.

But when you come out on the other side,
You are never the same, of course.
You are always in a higher
State of vibration than before.

Anticipate exploring your Darkness,
For it conceals an ever-growing brightness.

The volitional process is a higher Arc
Of the accident that's commonly called
Seeing the Light.

So, work it Baby.
Take a deep breath and work it.
